Great Falls, MT.

GENERAL: All grading is 100% complete with exception of shaping ditches between Sta. 1161 and 1173 & between Sta. 1198 and 1222. The areas have been excessively wet all construction season & daily afternoon showers prevent ditches from drying sufficiently to permit finishing to the smooth surface required for placing Asph. Rubber Membrane. Asph. Rubber Membrane is 34% complete, having been placed on the sub-grade as per Typ. Sect. No. 1 & over the existing pavement on the N.B. lane as per Typ. Sec. No. 3. Weather permitting, anticipate completion of rubber membrane week of 8/1. Approx. 80% of pre-leveling has been accomplished to date. Remaining leveling course to be placed just prior to application of rubber membrane. 4 IN CBC is 100% complete & 1½" CBC is 71% complete between Sta. 1077 & 1087 & Sta. 1093 & 1117. Anticipate beginning Pl. Mix operations immediately on completion of gravel operations which is anticipated to be week of 8/1. Six days have been lost due to heavy rain & progress is very poor due to extremely wet conditions.
